 Strong Sales Momentum & Record 12-Month Backlog of \$3.89 Billion, up 9.9% YoY
 Tracking in Line with the High End of Fiscal 2022 Revenue Growth Outlook*

Second Quarter Fiscal 2022 Highlights

(All comparisons are against the prior year)

- Tracking in line with the high end of fiscal 2022 revenue growth outlook of 5.2% -7.2% as reported and 8.0% -10.0% on a pro forma⁽²⁾ and constant currency⁽³⁾ basis
- Tracking in line with the high end of fiscal 2022 adjusted GAAP diluted EPS growth⁽⁴⁾ outlook of 7.5% -12.5% and pro forma⁽²⁾ non-GAAP diluted EPS growth outlook of 9.0% -12.0%
- Record revenue of \$1,145 million, up 9.2% as reported and up 10.1% in constant currency⁽³⁾; revenue growth has exceeded 10% for three consecutive quarters on a pro forma⁽²⁾ and constant currency⁽³⁾ basis
- Record revenue of \$772 million in North America, up 13.7%
- GAAP diluted EPS of \$1.28, above the \$0.96 - \$1.04 guidance range, primarily due to a lower GAAP effective tax rate than anticipated in quarterly guidance⁽⁵⁾
- Non-GAAP diluted EPS of \$1.54, above the \$1.22 - \$1.28 guidance range, primarily due to a lower non-GAAP effective tax rate than anticipated in quarterly guidance⁽⁵⁾
- GAAP operating income of \$164 million; GAAP operating margin of 14.3%

(1) Please refer to the Selected Financial Metrics tables below (figures may not sum because of rounding).

(2) Pro forma growth rate excludes the financial impact of OpenMarket (which was divested on December 31, 2020) from fiscal year 2021

(3) Revenue on a constant currency basis assumes exchange rates in the current period were unchanged from the prior period

(4) Adjusted GAAP excludes the gain from the sale of OpenMarket, which was divested on December 31, 2020, from the current and comparable fiscal years; fiscal 2022 GAAP diluted EPS growth outlook is expected to be (20.5)%-(17.0)% on a non-adjusted basis

(5) Effective tax rate on a GAAP and non-GAAP basis in the second quarter fiscal 2022 was lower than anticipated in quarterly guidance primarily due to the release of tax reserves connected with funding decisions for the construction of the new Israel campus. This tax benefit was among the scenarios contemplated in non-GAAP effective tax rate guidance for the full fiscal year 2022, which is still anticipated to be within a range of 13.0% to 17.0%.

- Non-GAAP operating income of \$202 million; non-GAAP operating margin of 17.6%, up 10 basis points sequentially and unchanged as compared to last year's second fiscal quarter while accelerating R&D investments
- Free cash flow of \$122 million, reflecting healthy cash collections, and comprised of cash flow from operations of \$169 million, less \$47 million in net capital expenditures and other⁽¹⁾
- Normalized free cash flow of \$160 million⁽¹⁾
- Repurchased \$130 million of ordinary shares during the second fiscal quarter
- Record twelve-month backlog of \$3.89 billion, up approximately \$60 million sequentially and up 9.9%

JERSEY CITY, NJ – May 11, 2022 – Amdocs Limited (NASDAQ: DOX), a leading provider of software and services to communications and media companies, today reported operating results for the three months ended March 31, 2022.

“I am excited to report another very strong quarter for Amdocs as we continued to enable our customer’s strategy to provide a superior mobile and broadband experience by supporting their long-term investments in 5G monetization, cloud adoption, digital modernization, and network automation. Record revenue of \$1.15 billion was up 10.1% in constant currency⁽³⁾ from a year ago, reflecting strong business activity building next-generation platforms for large customers like AT&T, T-Mobile, and Vodafone Germany under multi-year programs. Sales momentum was also strong in Q2 and included a digital transformation project award with VodafoneZiggo in Netherlands, and a new 5G policy deal which expands our footprint at a leading Tier 1 European operator. Overall, we ended the fiscal second quarter with record-high 12-month backlog of \$3.89 billion, which was up nearly 10% from a year ago,” said Shuky Sheffer, president and chief executive officer of Amdocs Management Limited.

“Demonstrating great execution in Q2, we set another company record for the number of quarterly milestones deployed. Our accomplishments included the go-live of a major digital transformation project for Three UK in just 15 months, highlighting our unrivalled reputation for project delivery. This was also a record quarter in managed services, driven by

continued growth with new and existing customers. At Bell Canada, we signed a five-year managed services extension that expands our long-term strategic relationship in support of Bell's continued cloud transformation. Additionally, we strengthened our partnership with PLDT in the Philippines, where this leading operator awarded Amdocs a three-year extension of our existing managed services agreement through 2028, in addition to future projects to support PLDT's cloud journey," said Tamar Rapaport-Dagim, chief financial officer & chief operating officer of Amdocs Management Limited.

Sheffer concluded, "Our growth strategy is highly aligned with the needs of the market, and we see an expanding pipeline of opportunities ahead of us which we are well positioned to monetize with our market-leading products, best-in-class execution and highly talented people. Moreover, we are tracking in line with the high end of our fiscal 2022 revenue growth outlook of 8.0% to 10.0% on a pro forma⁽²⁾, constant currency⁽³⁾ basis, our confidence in which is supported by the business momentum reflected in our record 12-month backlog at the halfway point in the year."

Three Year Fiscal 2022-2024 Outlook

- In addition to our full year fiscal 2022 revenue guidance, we project revenue growth of 6.0% to 10% year-over-year on a constant currency⁽³⁾ basis in each of fiscal years 2023 and 2024
- Projecting revenue growth on an as reported basis in each of fiscal years 2023 and 2024 is not possible without unreasonable efforts given the uncertain impact of foreign exchange rates and acquisition activity which cannot be reasonably predicted at this time

Our third fiscal quarter 2022 and full year fiscal 2022, 2023 and 2024 forward looking projections take into consideration the Company's current expectations regarding macro and industry specific risks and various uncertainties and certain assumptions that we will discuss on our earnings conference call. However, we note that market dynamics continue to shift rapidly and we cannot predict all possible outcomes, including those resulting from the COVID-19 pandemic, including its novel strains, which has created, and continues to create, a significant amount of uncertainty, or from current and potential customer consolidation or their other strategic corporate activities.

Non-GAAP Financial Measures

This release includes non-GAAP diluted earnings per share and other non-GAAP financial measures, including free cash flow and normalized free cash flow, revenue on a constant currency⁽³⁾ basis, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP interest and other expenses, net, non-GAAP income taxes, non-GAAP effective tax rate, non-GAAP net income and non-GAAP diluted earnings per share growth. These other non-GAAP measures exclude the following items:

- amortization of purchased intangible assets and other acquisition-related costs;
- changes in certain acquisition-related liabilities measured at fair value;
- non-recurring and unusual charges or benefits (such as a gain from divestiture of OpenMarket);
- equity-based compensation expense;
- other; and
- tax effects related to the above.

Free cash flow equals cash generated by operating activities less net capital expenditures and other. Normalized free cash flow, a measure of our operating performance, is further adjusted to exclude net capital expenditures related to the new campus development, payments for non-recurring and unusual charges (such as capital gains tax in relation to the divestiture of OpenMarket), and payments of acquisition related liabilities. These non-

GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Amdocs believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Amdocs' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Amdocs' results of operations in conjunction with the corresponding GAAP measures.

Amdocs believes that the presentation of non-GAAP diluted earnings per share and other financial measures, including free cash flow and normalized free cash flow, non-GAAP cost of revenue, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP interest and other expenses, net, non-GAAP income taxes, non-GAAP effective tax rate, non-GAAP net income and non-GAAP diluted earnings per share growth when shown in conjunction with the corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to its financial condition and results of operations, as well as the net amount of cash generated by its business operations after taking into account capital spending required to maintain or expand the business.

For its internal budgeting process and in monitoring the results of the business, Amdocs' management uses financial statements that do not include amortization of purchased intangible assets and other acquisition-related costs, changes in certain acquisition-related liabilities measured at fair value, non-recurring and unusual charges or benefits, equity-based compensation expense, other and related tax effects. Amdocs' management also uses the foregoing non-GAAP financial measures, in addition to the corresponding GAAP measures, in reviewing the financial results of Amdocs. In addition, Amdocs believes that significant groups of investors exclude these items in reviewing its results and those of its competitors, because the amounts of the items between companies can vary greatly depending on the assumptions used by an individual company in determining the amounts of the items.

Amdocs further believes that, where the adjustments used in calculating non-GAAP diluted earnings per share are based on specific, identified amounts that impact different line items in the Consolidated Statements of Income (including cost of revenue, research and development, selling, general and administrative, operating income, interest and other expenses, net, income taxes and net income), it is useful to investors to understand how these specific line items in the Consolidated Statements of Income are affected by these adjustments. Please refer to the Reconciliation of Selected Financial Metrics from GAAP to Non-GAAP tables below.

Disclaimer

The information contained herein in this presentation or delivered or to be delivered to you during this presentation does not constitute an offer, expressed or implied, or a recommendation to do any transaction in Amdocs Limited securities or in any securities of its affiliates or subsidiaries.

This presentation and the comments made by members of Amdocs management in conjunction with it include information that constitutes forward-looking statements made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995, including statements about Amdocs' growth and business results in future quarters. Although we believe the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that our expectations will be obtained or that any deviations will not be material. Such statements involve risks and uncertainties that may cause future results to differ from those anticipated. These risks include, but are not limited to, the effects of general economic conditions, the duration and severity of the COVID-19 pandemic, and its impact on the global economy, Amdocs' ability to grow in the business markets that it serves, Amdocs' ability to successfully integrate acquired businesses, adverse effects of market competition, rapid technological shifts that may render the Company's products and services obsolete, potential loss of a major customer, our ability to develop long-term relationships with our customers, and risks associated with operating businesses in the international market. Amdocs may elect to update these forward-looking statements at some point in the future; however, Amdocs specifically disclaims any obligation to do so. These and other risks are discussed at greater length in Amdocs' filings with the Securities and Exchange Commission, including in our Annual Report on Form 20-F for the fiscal year ended September 30, 2021 filed on December 9, 2021, and our Form 6-K furnished for the first quarter of fiscal 2022 on February 14, 2022.

This presentation includes non-GAAP financial measures, including non-GAAP operating margin, free cash flow, normalized free cash flow, revenue on a constant currency basis, non-GAAP net income and non-GAAP earnings per share. Free cash flow equals cash generated by operating activities less net capital expenditures and other. Normalized free cash flow, a measure of our operating performance, is further adjusted to exclude net capital expenditures related to the new campus development, payments for non-recurring and unusual charges (such as capital gains tax to be paid in relation to the divestiture of OpenMarket), and payments of acquisition related liabilities. These non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Amdocs believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Amdocs' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Amdocs' results of operations in conjunction with the corresponding GAAP measures. Please refer to the appendix for a reconciliation of these metrics to the most comparable GAAP provision.

This presentation also includes pro forma metrics which exclude the financial impact of OpenMarket (divested on December 31, 2020) from fiscal year 2021.

Please also review the information contained in Amdocs' press release dated May 11, 2022 with respect to earnings for fiscal Q2 2022. The press release contains additional information regarding Amdocs' outlook for fiscal years 2022, 2023 and 2024 and certain non-GAAP metrics and their reconciliations.
